REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While Tas (U.S. Patent No. 5,306,877) shows a conveying assembly for fruit handling equipment that includes a carriage attached to a conveying chain and a cup secured to the carriage via a parallelogram linkage so as to be movable from a conveying position to a discharge position to effect discharge of fruit and so as to allow the cup to be vertically displaceable to effect weighing of the fruit, the parallelogram linkage extends parallel to the conveying direction rather than transversely to the conveying direction as required by the independent claim. Furthermore, it would not have been obvious to one of ordinary skill in the art at the time of the invention to rearrange the parallelogram linkage of Tas so that it extends transversely to the conveying direction because such rearrangement produces unexpected results by improving the accuracy of the weighing operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
